Several physicians have pronounced my disease blood poison, caused by paint or lead in the paint, but they could not cure me. Last summer I used eighteen bottles of a largely advertised blood medicine, which did me no more good than so much water.

I have only used two bottles of B. B B. and am proud to say that I have acceived greater benefit from them than from the eighteen, and am now rapidly recovering. There is no question about the superiority of B. B. B. over all blood remedies.
